ABOUT RONNIE TSUNAMI:

Originally from Honolulu, Hawaii, and a former member of the US Air Force who also served for the Secretary of Defense, Ronnie Tsunami has been called the “MacGyver” of training because of his ability to quickly develop learning solutions that help market and sell new products/services. He has generated millions of dollars in revenue for enterprise organizations, such as Microsoft, Spectrum and PlantPure Nation, and he has also helped to quickly build “tribes” for movements that are reshaping the world. He currently speaks around the country to businesses and social entrepreneurs on how to accelerate change in their organizations and society as a whole. His mantra is “go bigger and faster...tsunami-style!”

Achievements:

- Built training programs that have been implemented in over 10K academic institutions and enterprise organizations around the world
- Grew global support communities with 2 million members spanning 400 cities
- Launched the largest web video summit ever done on the Internet in only two months

We learned more in just 1 hour with Ronnie Tsunami than 6 months of training AND he had us laughing the whole time ...he is literally a tsunami!
